Overath/Limburg 19.07.13 – The manufacturer of the German luxury trolley JuCad starts a cooperation with Dr. Kerstin Kellermann (photo). In future the custom golf producer will present all custom tour bags and custom cart bags with a JuCad eCaddy. The custom golf bags are photographed together with the JuCad trolley. The pictures are presented in the online store [www.kellermann-golf.com](http://www.kellermann-golf.com) as well as in the picture galleries [www.cartbags.de](http://www.cartbags.de) and [www.tourbags.de](http://www.tourbags.de). The brands JuCad and KellermannGolf are established in the upper segment of the golf equipment industry. Both benefit from the mutual advertising impact of the project that is scheduled in the first phase until 31.12.2014. During this period the JuCad Titan Travel (3900 value of goods) stays with Kellermann Golf. It will be used for photo shootings and outdoor product tests. „The JuCad and our golf bags fit very well together“ – says Dr. Kerstin Kellermann. JuCad offers golf bags, too - but is not in competition with Kellermann Golf. The owner-managed company is specialized just on custom golf bags.
